Hildebrand Department of Petroleum and Geosystems Engineering
The University of Texas at Austin
200 East Dean Keeton Street, CPE 4.118B
Austin, TX 78712
Email: wensong@utexas.edu *Office:* (512) 471-5789

EDUCATION

Stanford University, Stanford, California USA
Ph.D., Energy Resources Engineering, January 2019
Advisor: Anthony R. Kovscek
Dissertation: *Fluid-Fluid, Fluid-Mineral Interactions and Reactive Transport in Porous Media*
Ph.D. minor, Mechanical Engineering, January 2019
Advisor: John A. Dabiri (now at Caltech)

University of Toronto, Toronto, Ontario Canada
M.A.Sc., Mechanical Engineering, June 2014
Advisor: David A. Sinton
Thesis: *Microfluidic Visualization of Phase and Flow Phenomena Related to Carbon Dioxide Transport and Usage*
B.A.Sc., Engineering Science, June 2012
Advisor: Brent E. Sleep
Thesis: *Two Phase Dynamics in Porous Media with Applications to Carbon Sequestration*

CURRENT AND PREVIOUS ACADEMIC POSITIONS

University of Texas at Austin	
Assistant Professor, Petroleum and Geosystems Engineering	January 2019 - present
George H. Fancher Assistant Professor	September 2020 - present
Affiliated Faculty, Center for Subsurface Energy and the Environment	January 2019 - present
Affiliated Faculty, Texas Materials Institute	September 2020 - present
Affiliated Faculty, Battery Research Group	September 2021 - present
Co-Director, UT Austin Critical Minerals Group	September 2021 - present

INTERESTS

ACADEMIC I am interested in understanding and controlling the fundamental geochemical processes that determine the formation and recovery of earth resources to achieve energy and environmental sustainability. My current research develops and uses novel micro/nano-visualization approaches to study the geochemical mechanisms underlying processes including critical minerals recovery, solid CO₂ storage, and energy storage to enable an energy transition toward sustainability and carbon neutrality. Our group combines experimentally-obtained visual observations with machine learning-based image processing and geochemistry theory to inform predictive model development.

TEACHING My primary teaching goal is to educate students with fundamental knowledge in the geosciences and engineering, and an ability to think critically and creatively so that students are equipped to meet our society's rising demands towards energy and environmental sustainability. I also aim to help develop their ability and passion towards advancing fundamental geosciences and engineering knowledge. I am interested in teaching both basic and applied courses in sustainability, energy resources, subsurface flow and transport, fluid mechanics, thermodynamics, geochemistry, and general courses in energy and environmental resources to develop the next generation of leaders in the geosciences and engineering.

HONORS, AWARDS, AND ACHIEVEMENTS

NSF CAREER Award, 2022–2027

UT Austin Nominee, Johnson & Johnson WiSTEM²D Award, 2020

Fellow, George H. Fancher Professorship in Petroleum and Geosystems Engineering, 2020–present

American Chemical Society Petroleum Research Fund Doctoral New Investigator Award, 2020–2022

Protégé of Larry W. Lake, The Academy of Medicine, Engineering, and Science of Texas, 2020

Gerald J. Lieberman Fellowship, 2018-2019

Gordon Research Conference (Microfluidics, Physics and Chemistry of) Best Poster Award, 2017

Gordon Research Seminar (Flow and Transport in Permeable Media) Discussion Leader, 2016

Petroleum Research School of Norway STEP Scholarship, 2016

Hormoz and Fariba Ameri Graduate Education Fellowship in Earth Sciences, 2015-2018

Society of Petroleum Engineers Calgary Section Scholarship, 2104

4th World Petroleum Council Youth Forum Student Invitation Fellowship, 2013

Queen Elizabeth II Graduate Scholarship in Science and Technology, 2013–2014

MIE Research Symposium Best Poster Presentation Award, 2013

Carbon Management Canada International Research Exchange Fellowship, 2013

Gordon Cressy Award for Student Leadership, 2012

Engineering Science Research Opportunities Program Fellowship, 2009

MEMBERSHIPS IN PROFESSIONAL AND HONORARY SOCIETIES

Member, Society of Engineering Science (SES)

Member, Society of Petroleum Engineers (SPE)

Member, American Chemical Society (ACS)

Member, American Association of Petroleum Geologists (AAPG)

Member, Geochemical Society (GS)

Member, Academy of Association for the Advancement of Science (AAAS)

Member, Society of Women Engineers (SWE)

UNIVERSITY COMMITTEE ASSIGNMENTS

Member, Center Outreach Committee, CSEE, UT Austin, 2021

Member, EnergyNet Panel, PGE, UT Austin, 2021

Member, Computers Committee, PGE, UT Austin, 2021–present

Member, Ad Hoc Committee on Sustainability Minor, PGE, UT Austin, 2021

Member, Graduate Studies Committee, PGE, UT Austin, 2020-2021

Member, Faculty Recruitment Committee, PGE, UT Austin, 2020-2021

Member, Petroleum Science and Technology Institute for Texas High School Teachers, Department of Petroleum and Geosystems Engineering, UT Austin, 2019–present

OTHER UNIVERSITY SERVICE

Session leader, My Introduction To Engineering (MITE) Summer Enrichment Camp, Equal Opportunity in Engineering Program, UT Austin, 2022

Panel Moderator, The Future of Sustainability in Energy, Switch Energy Alliance, UT Austin, 2020

Speaker and Panelist (various topics), UT Energy Week, UT Austin, 2020–present

Graduate and Industry Networking Poster Judge, Graduate Engineering Council, UT Austin, 2019–present

UT Energy Week Poster Judge, UT Energy Club, UT Austin, 2019–present

Chair, Session on Unconventional Resources, Center for Petroleum and Geosystems Engineering Annual Showcase, UT Austin, 2019

Student Paper Contest Judge, Society of Petroleum Engineers UT Austin Chapter, UT Austin, 2019–present

Careers Opportunities On Location Week Lecture, UT Austin, 2019

PROFESSIONAL SOCIETY AND GOVERNMENTAL COMMITTEES

Service to Professional Society

Member, Short Courses Committee, InterPore, 2021–present

Scientific Committee Member, Microfluidics and Energy Symposium, 2020–2021

Technical Advisor, Interface Fluidics, 2017–2019

Journal Reviewer

Scientific Reports; Lab on a Chip; ACS Omega; Energy and Fuels; Transport in Porous Media; Fuel; Water Resources Research; Colloid and Interface Science Communications; Journal of Colloid and Interface Science; Applied Clay Science; Journal of Petroleum Science and Engineering; Natural Resources Research; Greenhouse Gases: Science and Technology; IEEE Transactions on Geoscience and Remote Sensing; Journal of Natural Gas Science and Engineering; Applied Sciences; Processes; Applied Optics; Catalysts; SPE Journal; International Journal of Greenhouse Gas Control; AIChE Journal; Computational Geosciences.

Research Proposal Reviewer

National Science Foundation (NSF), 2020, 2021, 2022

American Chemical Society (ACS) Petroleum Research Fund, 2019, 2021, 2022

COMMUNITY ACTIVITIES

Conference/Workshop Chair/Co-Chair

Panelist, Women STEM Leadership in Academia, Career Strategies for Women in STEM Seminar Series, City College of New York, 2021

Mentor, Department of Energy Resources Engineering, Stanford University, 2020–present

Convener and Chair, Session H136 Understanding Pore-Scale Mechanisms of Fluid Flow in Porous Media: Modeling and Experimental Approaches, AGU Fall Meeting, 2019

Clean Energy, Education, and Empowerment (C3E) Symposium Organizing Committee, Clean Energy Ministerial, US Department of Energy, 2017–2018

Global Energy Forum Organizing Committee, Precourt Institute for Energy, Stanford University, 2017–2018

Student Energy Competitions Task Force, Precourt Institute for Energy, Stanford University, 2017 – 2018

President, Stanford Energy Club, Stanford University, 2017 – 2018

Department Seminar Committee, Energy Resources Engineering, Stanford University, 2017 – 2018

Undergraduate Mentor Program Chair, Energy Resources Engineering, Stanford University, 2017 – 2018

Faculty Search Committee, Energy Resources Engineering, Stanford University, 2016 – 2017

Oil and Gas Group Leader, Stanford Energy Club, Stanford University, 2016 – 2017

Undergraduate and Graduate student mentor, Stanford University, 2015 – 2018

President, Officer, Society of Petroleum Engineers, Stanford University Chapter, 2015 – 2017

Founder and President, Society of Petroleum Engineers, University of Toronto Chapter, 2013 – 2014

Director of Seminars, Sustainable Engineers Association, 2010 – 2013

Chair, Mentor, Engineering Science Freshman Mentorship Program, 2009 – 2012

President, Project Director Tetra Society, University of Toronto Chapter, 2009 – 2012

3. Song, W., Fadaei, H., and Sinton, D. Micro/nanofluidics for hydraulic fracturing of shale gas. *Institute of Sustainable Energy Industrial Advisory Board Meeting*. Toronto, Canada, October 2013. [Poster]
2. Song, W., Fadaei, H., and Sinton, D. Dew point determination for impure CO₂ mixtures at high pressures and high temperatures using microfluidics. *3rd Annual Carbon Management Canada Conference*. Calgary, Canada. [Poster]

Also presented at the *8th Annual Ontario-on-a-Chip conference* in Toronto, Canada, and the *4th MIE Research Symposium*. Toronto, Canada, June 2013.
1. Song, W. and Xia, K. Effect of notch thickness on the determination of fracture toughness using dynamic semi-circular bend technique. *University of Toronto Undergraduate Engineering Research Day*. Toronto, Canada, August 2009. [Talk]

PATENTS

2. Song, W. and Underwood, T. Multifunctional soft diode for artificial systems. U.S. Provisional Patent No. 63/326,489 (April 2022).
1. Song, W., Underwood, T., and Gerardo, S. Electrodeposition of metals from liquid media. U.S. Patent No. 17/729,268 (April 2022).

FUNDED GRANTS AND CONTRACTS

9. CAREER: Rare Earth Elements Recovery from Nanoporous Ion-Adsorption Clays using Seawater (PI)

Source of Support: National Science Foundation
Award Number: 2145374
Total Award Period: 09/01/2022 - 08/31/2027
Total Award Amount: \$ 513,469
8. Assessment of Rare Earth Elements and Critical Minerals in Coal and Coal Ash in the U.S. Gulf Coast (co-PI)

Source of Support: U.S. Department of Energy, Office of Fossil Energy and Carbon Management
Award Number: DE-FE0032053
Total Award Period: 09/15/2021 - 09/14/2023
Total Award Amount: \$ 1,879,190
7. Direct Conversion of Li-Ions to Li-Metal from Domestic Brines or Produced Water through Electromagnetically-Controlled Dendritic Electrodeposition (PI)

Source of Support: U.S. Department of Energy, Office of Energy Efficiency and Renewable Energy
Award Number: DE-EE0009440
Total Award Period: 06/01/2021 - 08/31/2024
Total Award Amount: \$ 625,000
6. On the Fluid-Solid Evolution of Nanoporous Materials: Mechanistic Delineation of Artificial Shale Maturation (PI)

Source of Support: American Chemical Society (ACS) Petroleum Research Fund (PRF) Doctoral New Investigator (DNI) Award

- Award Number: PRF 61218-DNI9
 Total Award Period: 09/01/2020 - 08/31/2022
 Total Award Amount: \$ 110,000
5. Enabling the Sustainable Energy Transition: Economic Recovery of Rare Earth Elements (PI)
 Source of Support: UT Austin Energy Institute
 Total Award Period: 01/01/2020 - 05/31/2022
 Total Award Amount: \$ 320,973
 4. Assuring Long-term Storage of Captured CO₂: Technical-Legal-Policy-Business Models (co-PI)
 Source of Support: UT Austin Energy Institute
 Total Award Period: 01/01/2020 - 05/31/2022
 Total Award Amount: \$ 318,723
 3. Engineered Water for Improved Oil Recovery from Fractured Reservoirs (co-PI)
 Source of Support: U.S. Department of Energy, Office of Fossil Energy
 Award Number: FE0031791
 Total Award Period: 09/01/2019 - 08/31/2023
 Total Award Amount: \$ 7,919,227
 2. Targeted Enhanced Oil Recovery using Nanoparticle-Stabilized Solvent Capsules (PI)
 Source of Support: Chemical Enhanced Oil Recovery Consortium
 Total Award Period: 06/01/2019 - 05/31/2023
 Total Award Amount: \$ 50,000
 1. CO₂ foams stabilized only with surface-modified silica nanoparticles for enhanced oil recovery (co-PI)
 Source of Support: ConTex
 Total Award Period: 09/01/2019 - 08/31/2020
 Total Award Amount: \$ 100,000

COURSES TAUGHT

Undergraduate Courses

- PGE 323K (Unique Number: 18730), Reservoir Engineering I: Primary Recovery (Fall 2020 semester, online instruction due to COVID-19)
 Evaluated as *"Dr. Song is an amazing individual. She genuinely cares for her students, not only for our academic success, but also for our personal well-being. She's very approachable and is always available to address any type of concerns. Her thorough lectures are engaging, entertaining, and well-organized. She goes through everything step by step, so we can have a complete understanding of the material. She's very passionate about the subject and makes a tough course seem simple with her analogies, deep explanations, and her reiterating of the material. Being a student who is aspiring to become a professor, I consider her a role model."*
 and *"I enjoyed this class and feel that Dr. Song was the factor that made it bearable. We had some disruptive students in class this semester, but she handled it very well and exhibited more patience than I could. For people with genuine concerns and who truly want to learn and improve, she is extremely kind, understanding, and goes above and beyond to ensure her students are learning and healthy. I felt the course was well organized, although it was extremely challenging at times. I appreciated that she reviewed previous days material in order to align us on the right ideas for the current days materials."*

- PGE 323K (Unique Number: 18650), Reservoir Engineering I: Primary Recovery (Fall 2019 semester)
Evaluated as *extraordinary professor!* and *Made me genuinely excited to come to class. Before I took your class I was unsure whether I was interested in having a career as a Reservoir Engineer but your class helped realize that I would enjoy it.*

Graduate Courses and Combined Undergraduate/Graduate Courses

- PGE 383 (Unique Number: 19910), Small-Scale Fluid Flow (Spring 2022 semester)
- PGE 379/383 (Unique Number: 19844/19949), Geothermal and Sustainable Energy Resources (Spring 2022 semester)
- PGE 379/383 (Unique Number: 20034/20149), Geothermal and Sustainable Energy Resources (Spring 2021 semester, online instruction due to COVID-19)
- PGE 379/383 (Unique Number: 19208/19285), Small-Scale Fluid Flow (Spring 2020 semester, online instruction due to COVID-19)
Evaluated as *"Lectures were very helpful and explained concepts starting from simple roots, and the number of examples and analogies was helpful in picturing the phenomena."* and *"I loved everything Dr. Song taught, she always knew how to answer our questions and how to teach a hard topic in simpler ways. I wish I could have taken more classes with her!"*
- PGE 383 (Unique Number: 19130), Small-Scale Fluid Flow (Spring 2019 semester)
- ENERGY 251, Thermodynamics of Equilibria (Fall 2018, Stanford University)

Teaching Assistsant

- ENERGY 301/ CEE 301/ MS&E 494: The Energy Seminar (Winter 2018, Stanford University)
- ENERGY/EE 293B: Fundamentals of Energy Processes (Winter 2017, Stanford University)
- ENERGY/EE 293B: Fundamentals of Energy Processes (Winter 2016, Stanford University)
- CHE 260: Thermodynamics and Heat Transfer (Fall 2013, University of Toronto)

ACADEMIC SUPERVISION

Ph.D. Supervisions Completed

1. David Erik Fukuyama, June 2022, Petroleum and Geosystems Engineering, University of Texas at Austin (co-advised with Hugh Daigle)
Dissertation: *Gas Transport and Hydrate Formation in Porous Media.*
Note: David is working at Sandia National Labs now.

M.S. Supervisions Completed

1. Sheila Gerardo, June 2021, Petroleum and Geosystems Engineering, University of Texas at Austin
Thesis: *Characterization and Recovery of Rare Earth Elements from Coal Fly Ash.*
Note: Sheila continued onto Ph.D. studies in my group.

Ph.D. Students in Progress

A. Students Entered into Ph.D. Candidacy

3. Artur Davletshin, University of Texas at Austin (January 2019–)
Dissertation: *In-Situ Visualization of Fluid Dynamics in Nanoporous Materials.*

2. Daniel Hatchell, University of Texas at Austin (September 2019–)
Dissertation: *Stability of Pickering Emulsions*.
Note: Daniel is co-advised by Hugh Daigle.
1. Malin Hagen, University of Bergen, Norway (January 2019–)
Dissertation: *CO₂ Storage in Carbonate Reservoirs*.
Note: Malin is co-advised by Martin Ferno.

B. Students Not Yet Entered into Ph.D. Candidacy

3. Sheila Gerardo, University of Texas at Austin (January 2019–)
Dissertation: *Geochemical Mechanisms Dictating the Recovery of Critical Materials and Rare Earth Elements*.
Note: Sheila is an M.S./Ph.D. student.
2. Shunxiang Xia, University of Texas at Austin (January 2020–)
Dissertation: *Multiphase Fluid Dynamics in Carbonate Porous Materials*.
1. Qianjun Liu, University of Texas at Austin (September 2020–)
Dissertation: *Li recovery from aqueous resources*.
Note: Qianjun was unable to enter the U.S. for her first year of study.

M.S. Students in Progress

1. Jack Strawson, University of Texas at Austin (September 2021–)
Thesis: *Nanoparticle-stabilized targeted solvent delivery*.
Note: Jack is an M.S./Ph.D. student.

Undergraduate Students Mentored

10. Daniel Moran, University of Texas at Austin (Summer 2022)
Note: Daniel was a SURI student.
9. Brayden Popica, University of Texas at Austin (Spring 2022)
8. Jason Fan, University of Texas at Austin (Summer 2020)
Topic: *Particle Image Velocimetry in Microfluidic Flows*.
Note: Jason was a SURI student.
7. Hunter Harmuth, University of Texas at Austin (Summer 2020)
Topic: *Automated Segmentation of Pore-Scale Micrographs*.
6. Jack Strawson, University of Texas at Austin (Summer 2020)
Topic: *Nanoparticle-Stabilized Solvent Delivery for Enhanced Oil Recovery*.
Note: Jack was a SURI student and has since continued onto an M.S./Ph.D. in my group.
5. Jaehun (Eric) Yoon, University of Texas at Austin (Summer 2019)
Topic: *Direct Microvisual Chemical Analysis of Reactive Transport Dynamics*.
4. Xuefei (Sophie) Zhao, University of Texas at Austin (Spring 2019)
Topic: *Self-Folding Origami Structures for Compression-Resistance*.
3. Emma Li, Stanford University (Summer 2018)
Topic: *Fractal dimensions of fluid fingering in Hele-Shaw cells*.
Note: Emma was a high school student.
2. Natarajan (Raja) Ramesh, Stanford University (Summer 2017)
Topic: *Nanofabrication of micromodels for fluid-mineral interactions visualization*.

1. Donnique Sherman, Stanford University (Summer 2015)
Topic: *Low salinity brine-clay interactions in kaolinite-functionalized micromodels*.
Note: Donnique was a SURGE Diversity Program undergraduate research student.

Committees Served

A. Ph.D. Committees

6. Motaz Taha, Petroleum and Geosystems Engineering, University of Texas at Austin, June 2022–present.
Dissertation:
Advisor: Quoc Nguyen
5. Kevin C. Matthews, Texas Materials Institute, University of Texas at Austin, January 2022–present
Dissertation: *Interfacial Chemistry of Beyond Li Energy Storage Materials and Devices*.
Advisor: Jamie Warner
4. Sabyasachi Dash, Petroleum and Geosystems Engineering, University of Texas at Austin, December 2021–present
Dissertation: *Development of New Methods for the Assessment of Fluid Content and Mobility in Organic-Rich Mudrocks*.
Advisor: Zoya Heidari
3. Yue Shi, Petroleum and Geosystems Engineering, University of Texas at Austin, 2021–present
Dissertation: *Enhanced Oil Recovery from Heterogenous Oil-wet Tight Carbonate Reservoirs*.
Advisor: Kishore K. Mohanty
2. Jianping Xu, Petroleum and Geosystems Engineering, University of Texas at Austin, 2021–present
Dissertation: *Microfluidic Study of Pore-Scale Dissolution and Precipitation Patterns in Geological Carbon Storage*.
Advisor: Matthew Balhoff
1. Lucas Mejia, Petroleum and Geosystems Engineering, University of Texas at Austin, 2021
Dissertation: *Multiscale Visualization of Chemical Enhanced Oil Recovery*.
Advisor: Matthew Balhoff

B. M.S. Committees

3. Mohammed A. Almansouri, Petroleum and Geosystems Engineering, University of Texas at Austin, 2021.
Thesis: *Surfactant-Aided Wettability Alteration in Low-Temperature Low-Salinity Carbonate Reservoirs*
Advisor: Kishore K. Mohanty
2. Motaz Taha, Petroleum and Geosystems Engineering, University of Texas at Austin, 2020.
Thesis: *Experimental Evaluation of Foam for Mobility Control in WAG EOR in a Middle Eastern Carbonate Reservoir*
Advisor: Quoc Nguyen
1. Faisal Alammari, Petroleum and Geosystems Engineering, University of Texas at Austin, 2020.
Thesis: *Wettability Altering Surfactants for High-Temperature Tight Carbonate Reservoirs*
Advisor: Kishore K. Mohanty

STUDENT AWARDS

11. Sheila Gerardo: TEX-E Fellow (Greentown/MIT), Class of 2022
10. David Fukuyama: Outstanding Student Presentation Award (OSPA), 2021 AGU Fall Meeting, 2022
9. Sheila Gerardo: Student Travel Award, 2021 AGU Fall Meeting, 2021
8. Artur Davletshin: Third Place, GTX 2021 Datathon, 2021

7. Sheila Gerardo: Best Poster Award, UT Energy Institute Student Research Competition, UT Austin, 2021
6. Jack Strawson: Hildebrand Excellence Graduate Fellowship, 2021–2022
5. Artur Davletshin: Best Poster Award, Graduate and Industry Networking Conference, UT Austin, 2021
4. Jack Strawson: SURI Undergraduate Fellowship, 2020
3. Jason Fan: SURI Undergraduate Fellowship, 2020
2. Shunxiang Xia: Hildebrand Excellence Graduate Fellowship, 2020
1. Sheila Gerardo: DOE Research Experience in Carbon Sequestration Tuition and Travel Grant, 2019
